WORTELBOER
Anker Advies Bureau B.V.

What we stand for

G.J. Wortelboer already exists for many years. We are known worldwide for our ability to supply almost every type and size of anchor and chaincable. We are able to deliver promptly, because all of our products are kept in stock on our own yard, which covers roughly 18,000m².

The combination of both quick delivery and assembly on board ensures that you are not losing valuable time.

Furthermore, we manufacture the famous Flipper Delta® anchors, which are widely used in the offshore market for lay and crane barges, multi-purpose offshore support vessels, drilling rigs, survey vessels and dredgers.

Should you need an anchor or chaincables, the best thing you can do is to come to us!

Fitting

We have a professional team that can do the testing, overhauling and replacement of all your mooring equipment during your vessel's voyage in Europe. Anchors and chaincables can be fitted aboard at different locations, 24 hours a day, 7 days a week.

Our efficient way of working guarantees you that the job will be done in the quickest and most economical way.
